5Strands® Affordable Pet Testing Case Study Outline

We appreciate your feedback regarding your experience with 5Strands® Affordable Pet Testing! Please also provide a before and after photo of your pet! We understand that by providing this information you are granting permission for us to share your story on 5Strands® Affordable Testing's websites, social media and in marketing materials.

Pet's Name: Lulu

Pet's Breed & Sex: Female French Bulldog

Describe condition of pet and/or symptoms before using *Affordable Testing*. Losing hair in patches and itching bad in certain spots.

What type of food was your pet eating prior to testing (i.e. kibble, raw, frozen, freeze dried, etc.)?
Pedigree (Wet) Combo with Chicken, Liver, & Beef
Eukanuba Adult Dry Food Chicken – Small breed

Describe the results of *Affordable Testing* (i.e. number and/or examples of items reported as intolerances, insight gained, etc.). Chicken was on level 3 for Lulu based off the results from 5Strands. Chicken was the main ingredient in both her foods that we mixed during each feeding.

What elimination plan did you implement (i.e. foods eliminated and/or changes in environment, timeframe, etc.)? We took Lulu completely off both foods. Lulu has since started on Purina Pro Plan Adult for Sensitive Skin & Stomach the Salmon & Rice Entrée (Wet & Dry).

Describe condition of pet and/or symptoms after the elimination plan. Lulu hair grown back and she only itch a little after having plan time outside in the grass.

What is your impression of the *Affordable Testing* process and results of the elimination plan (i.e. length of time to receive results, quality of customer service, value of information gained, etc.)? 5Strand is worth the cost and wait time seeing all the information you gain from doing the affordable testing. Customer services was very polite and helpful whenever I had question before buying the test. All the information gained was very helpful for my family and our fur baby.
