5Strands® Affordable Testing Case Study Outline

We appreciate your feedback regarding your experience with *5Strands® Affordable Testing*! Please use this as a guideline to share your story. Please also provide a before and after photos if possible. It is understood that by providing this information, you are granting permission for us to share your story on *5Strands® Affordable Testing's* websites, social media and in marketing materials.

Name: Oaklynn E

Age and Sex: 2 year old male

Describe condition and/or symptoms before using *5Strands® Affordable Testing*.

Random rashes would appear on stomach area and legs

Have you been to a physician and had a diagnosis? Yes/No *Diagnosis:* Doctor looked at it and had no idea what the cause was and put him on a steroid cream.

Have you had any other testing done and if so, what type of testing?

Doctor wants to schedule testing for allergies but we have not done them yet. Very expensive!

What type of foods were you eating prior to testing (i.e. whole foods, processed foods etc.)?

Ate a varied diet of whole and processed foods.

Describe the results of *5Strands® Affordable Testing* (i.e. number and/or examples of items reported as intolerances, insight gained, etc.).

We were surprised to see cheddar cheese and cooked tomatoes show up on his list. His favorite food is pizza and he eats cheddar cheese slices everyday!

What elimination plan did you implement (i.e. foods eliminated and/or changes in environment, timeframe, etc.)?

Since Oak is only 2, he has a limited diet as it is. We just removed the few items he eats the most which is the cheese and cooked tomatoes, and chicken.

Describe condition and/or symptoms after the elimination plan.

So far after 8 weeks, he has not had any breakout of rashes!!!

What is your impression of the *5Strands® Affordable Testing* process and results of the elimination plan (i.e. length of time to receive results, customer service, value of information gained, etc.)?

The testing process was simple and very easy for a 2 year old. No blood draw is amazing! Taking the hair sample was easy. The report was simple to read. customer service team was extremely helpful in walking me through the purchase of the testing. Gained a lot of insight on the issues Oak was having. Never really imagined it could be the food.

Other comments:

Soooo very thankful for this test. Has made my son's life better and mine too! No more itchy nights and worry on my end that something serious could be wrong.
