

5Strands® Affordable Pet Testing Case Study Outline

We appreciate your feedback regarding your experience with 5Strands® Affordable Pet Testing! Please also provide a before and after photo of your pet! We understand that by providing this information you are granting permission for us to share your story on 5Strands® Affordable Testing's websites, social media and in marketing materials.

Pet's Name: Douglas ☺

Pet's Breed & Sex: Male Siberian Husky

Describe condition of pet and/or symptoms before using Affordable Testing.

Douglas was always sick and never had normal poops. He was always feeling poorly and gave us a lot of issues eating. We felt terrible for him because we couldn't get to the bottom of what was wrong!

What type of food was your pet eating prior to testing (i.e. kibble, raw, frozen, freeze dried, etc.)?

We used to feed Douglas Merrick dry food (kibble) from the day we got him at 8 weeks old. He has never had consistent poop because of that. His food was too rich for his stomach.

Describe the results of Affordable Testing (i.e. number and/or examples of items reported as intolerances, insight gained, etc.).

Since receiving the results, we have changed his food and stopped giving him blueberry treats as well as a few other food items that he is allergic to. It has helped so much as he now has normal poops and he is back to being the energetic loving puppy that we know and missed! We now know what to avoid and what not to feed him and it is wonderful.

What elimination plan did you implement (i.e. foods eliminated and/or changes in environment, timeframe, etc.)? We stopped giving him blueberries as treats, stopped giving him food with corn meal in it, and eliminated all items that he is allergic to.

Describe condition of pet and/or symptoms after the elimination plan.

After eliminating these items, Douglas is excited to eat food again and he is running around happy and playful like the pup we know and love! It is so great, such a blessing.

What is your impression of the Affordable Testing process and results of the elimination plan (i.e. length of time to receive results, quality of customer service, value of information gained, etc.)?

We loved getting these results to gain the clarity that we needed. Everything was so easy and straight forward. It was so great to do the testing. We will absolutely do it again for our other puppy at some point!
